## DEFENSE NUCLEAR FACILITIES SAFETY BOARD

625 Indiana Avenue, NW, Suite 700 Washington, D.C. 20004-2901  
(202) 694-7000

February 17, 2009

The Honorable Steven Chu  
Secretary of Energy  
U. S. Department of Energy  
1000 Independence Ave., SW  
Washington, DC 20585-1000

Dear Secretary Chu:

The Defense Nuclear Facilities Safety Board (Board) is pleased to enclose a copy of our Quarterly Report (No. 7) to Congress on the Status of Significant Unresolved Issues with the Department of Energy's Design and Construction Projects. In the Conference Report accompanying the FY 2007 National Defense Authorization Act, the conferees directed the Board to provide quarterly reports until the Department of Energy (DOE) and the Board submit a joint report "on their efforts to improve the timeliness of issue resolution, including recommendations, if any, for legislation that would strengthen and improve technical oversight of the Department's nuclear design and operational activities." The joint report was submitted to the congressional defense committees on July 19, 2007. While the conferees did not require the Board to continue providing quarterly reports, the Board believes these reports provide an appropriate means to keep all parties apprised of the Board's concerns with new designs for DOE defense nuclear facilities. The Board has received encouraging feedback from Congress. As such, the Board intends to continue issuing quarterly reports to Congress and DOE.

Sincerely,

A handwritten signature in black ink, appearing to read "A.J. Eggenberger".

A. J. Eggenberger  
Chairman

Enclosure: as stated
